

BG-250E SINGLE DISC GRINDER

AN ELECTRIC POWERED HEAVY DUTY GRINDER

The Blastrac BG-250E is a single disc concrete grinder designed for heavy duty surface preparation applications. The BG-250E is very easy and comfortable to use with low vibrations. Thanks to its two front handles, it is possible to lift the machine upstairs.

The BG-250E has an asymmetric dust exhaust with a built-in deflector for an improved / optimized dust extraction. In addition, it is equipped with a special drive system for optimum load distribution.

The BG-250E single disc grinder is dust free when connected to the appropriate Blastrac dust collection system. Blastrac has designed a full range of diamond products, which gives the opportunity to process any floor and specific application with the BG-250E.

	Ø250 mm
	146 kg

ONE SINGLE GRINDING HEAD

The single grinding head allows all the pressure of the machine to be distributed onto the one diamond disc in use for an 'aggressive' grinding.

DUST HOSE CONNECTION

The BG-250E is equipped with a Ø76 mm dust hose connection for a dust free jobsite.

Ø250 MM DIAMOND DISCS

The Blastrac BG-250E floor grinder has several optional grinding discs for use in specific applications .

FRONT HANDLES

Thanks to its two front handles, it is possible to lift the BG-250E single disc grinder upstairs.

LIFTING EYE

The BG-250E floor grinder is equipped with one lifting eye for the complete machine.
